#### Jewel Power "Affordably-priced haute couture"

is normally a fashion oxymoron—but not for Canadian TV and radio host, Terri Michael, and her jewelry line, Stoned Originals. Michael creates gorgeous handmade accessories using high quality materials (think Swarovski crystal and semi precious stones) with custom sizing at non-bank-breaking prices. Even more impressive is Michael's commitment to helping women in need—a large portion of every sale

goes straight to a women's shelter in each customer's area, helping eight shelters across North America. Visit [stonedoriginals.com](http://stonedoriginals.com) for a list of shelters and buying info. *Katie Gordon*
